

## Forest Survival

### Game rules:

- Set all players points
- In this forest, have hidden things to get more points
- The higher position, can get more points item

### Mission 1

#### Set up scoreboard

- Use scoreboard setup "point" system

#### Sample Coding Answer:

```
/scoreboard objectives add point dummy  
/scoreboard objectives setdisplay sidebar point  
/scoreboard players set @a point 0
```

## Mission 2

Setup the score for those blocks

If you break them, the block become air, then add 1 point

### Sample Coding Answer:

1. When the player break the block, then test successfully  
`/testforblock 2148 63 2009 air` (Repeat + Always active + 50 delay ticks)
2. When successfully test, then give the nearest player 1 point  
`/scoreboard players add @p point 1`
3. When give him 1 point, tell him with title command  
`/title @p title Get 1 Point`
4. Fill barrier to the position, don't avoid keep testing and keep adding the point  
`/fill 2148 63 2009 2148 63 2009 barrier`

### Your coding answer:

*\*\* You can pick any position (cannot be sample position)*
