

Mission 1

Set up scoreboard

- Use scoreboard setup "variable" system
- How to give your own second name??!!

Sample Coding Answer:

```
/scoreboard objectives add pro_coding dummy (impulse + need redstone)
```

```
/scoreboard objectives setdisplay belowname pro_coding (chain + always active)
```

```
/scoreboard players set @a pro_coding 1 (chain + always active)
```

Use @p to give the name to most nearest player only

Next Mission:

Think how to create our own MONOPOLY game in minecraft

1. What things should have inside a monopoly
2. What buildings
3. How to do
